“Nursing services at Advocate Health Care in nationally recognized as a leader in providing excellence in patient care and clinical outcomes”
Nightingale Pledge
I solemnly pledge myself before God,
And in the presence of this assembly,
To pass my life in purity,
And to practice my profession faithfully,
I will abstain from whatever is
deleterious and mischievous,
And will not take or knowingly
administer any harmful drug.
I will do all in my power to maintain
And elevate the standard of my profession,
And will hold in confidence.
All personal matter committed to my keeping,
and all family affairs coming to my knowledge,
in the practice of my calling,
With loyalty I will endeavor,
To aid the physician in his work,
and devote myself to the welfare of,
Those committed to my care.

Bengaluru is the capital of the Indian state of Karnataka. Bengaluru is India’s third largest city and fifth largest metropolitan area. Bengaluru evolved into a manufacturing hub for public sectors heavy industries particularly aerospace, space and defense.

The city enjoys a pleasant climate throughout the year. Its three-lined streets and abundant greeneries have led to it being named ‘Garden City of India’. Bengaluru is also referred to as the Silicon Valley of India and account for 40% of India’s software exports.

Home to prestigious colleges, research institutions, health education institutions and hospitals. The city has the second-highest literacy rate among the metropolitan cities in the nation.
Management

Welcome to the [ ] We hope it helps you discover how our century-long tradition of preparing the world's finest advanced practice nurses offers exciting opportunities for advancing your career.

All of this is critical to keeping a vibrant tradition alive at a time of dramatic change. Please contact us with your questions and thoughts. Stay in touch through [ ] with unique perspectives on nursing and health care as well as profiles of faculty, students, alumni and donors.

We look forward to hearing from you and opening our doors wider to share our knowledge and warmth.

Principal

Nursing has become a crucial part of the health care scenario now-a-days. You cannot imagine a health care facility without nurses. Their role is simply too important. A competent nurse has all the necessary knowledge, Cognitive skills and abilities for a comprehensive care of the patient during hospitalization. It also includes anticipating, recognizing and taking care of not just the problems of the patient but the problems of the family too.

A nurse needs to be well-qualified and pro-active and anticipate what needs to be done, especially at the time of chaos and panic. A nurse needs to be a responsible human being and take his/her responsibility very seriously. A nurse should be somebody who understands the worth of being a nurse and serves every patient with dedication. That is the dream that started this college to produce such nurses who can contribute to one of the noblest profession in the healthcare systems.

The KMJ College of Nursing which started in 2003 has within a span of 8 years achieved recognition as one of the top colleges of Nursing. We offer a 4 years B.Sc Nursing Degree Course and a GNM and B.Sc MLT programme (Green city institute of para medical science). A commitment to excellence in education, service and leadership is the essence of our programme.
Overview

Nursing in its most basic form has existed since the begging of time. It has solved from an informal act of caring for and nurturing others to a more complex scientific based profession. Basic tenets of the profession have there mained constant. From its infancy, the focus of nursing has been on assisting with meeting basic human needs. Over time, significant changes have occurred to meet the needs of an ever-changing society. Changes in the population make-up, consumer demands, technology, and economics are some of the key factors that have influenced how nursing has evolved. Nursing education, practice settings, and nursing roles have changed significantly.

Although nursing has come a long way from the day of strictly providing bedside care, it is by no means anywhere near its full maturity. In fact, nursing will continue to change and evolve as will the world.

Philosophy

Nursing is a direct service, goal oriented and adaptable to the needs of the individual, family and community during health and illness. Nursing is a profession, which is influenced by advances in science and technology and must advance with other profession to create a balance in health care. The college will be preparing students to develop ability in critical thinking, problem solving and take up responsibility in continuing education for professional effectiveness. The college will emphasize in spirit to serve the humanity with compassion. The profession involves selfless devotion and high degree of professional competence in keeping with latest technological advances in the field of Nursing.
